INDEX TO VOLUME 56, 2005

AUTHOR AND TITLE INDEX

(Excluding *Book Selection* and *Viewpoints*)
* = Case-Oriented Paper

Abendroth, L. J.:
(*see* Hanna, R. C.)
Adams, D.:
(*see* Leonard, K. J.)
Aghezzaf, E.:
Capacity planning and warehouse location in supply chains with uncertain demands, 453
Ahn, B. S.:
(*see* Han, C. H.)
Akeb, H.:
(*see* Huang, W. Q.)
*Akkermans, H. A. and van Oorschot, K. E.:
Relevance assumed: a case study of balanced scorecard development using system dynamics, 931
Alifantis, T.:
(*see* Robinson, S.)
*Al-Marsumi, M.:
Modelling some aspects of the maintenance management of the working refractory lining of small electric arc furnaces in the steel industry, 275
Altınel, İ. K. and Öncan, T.:
A new enhancement of the Clarke and Wright savings heuristic for the capacitated vehicle routing problem, 954
Alvarez-Valdes, R., Parreño, F. and Tamarit, J. M.:
A GRASP algorithm for constrained two-dimensional non-guillotine cutting problems, 414
Alves, R. A. F. S.:
(*see* Valente, J. M. S.)
Andreeva, G., Ansell, J. and Crook, J. N.:
Modelling the purchase propensity: analysis of a revolving store card, 1041
Ansell, J.:
(*see* Andreeva, G.)
Arcelus, F. J. and Arocena, P.:
Productivity differences across OECD countries in the presence of environmental constraints, 1352
Arocena, P.:
(*see* Arcelus, F. J.)
Ashton, R., Hague, L., Brandreth, M., Worthington, D. and Cropper, S.:
A simulation-based study of a NHS Walk-in Centre, 153
Azcarraga, A.:
(*see* Setiono, R.)

Baesens, B., Van Gestel, T., Stepanova, M., Van den Poel, D. and Vanthienen, J.:
Neural network survival analysis for personal loan data, 1089
*Baltas, G.:
Modelling category demand in retail chains, 1258
Banasik, J. and Crook, J.:
Credit scoring, augmentation and lean models, 1072
Bard, J. F.:
(*see* Zhu, G.)
Bayındır, Z. P., Erkip, N. and Güllü, R.:
Assessing the benefits of remanufacturing option under one-way substitution, 286
Beling, P., Covaliu, Z. and Oliver, R. M.:
Optimal scoring cutoff policies and efficient frontiers, 1016
Bennett, P., Hare, A. and Townshend, J.:
Assessing the risk of vCJD transmission via surgery: models for uncertainty and complexity, 202
Bensley, D.:
(*see* Davies, R.)
Berger, P. D.:
(*see* Hanna, R. C.)
Bhunia, A. K.:
(*see* Pal, A. K.)
Birgin, E. G., Morabito, R. and Nishihara, F. H.:
A note on an *L*-approach for solving the manufacturer's pallet loading problem, 1448
*Black, M., Brint, A. T. and Brailsford, J. R.:
A semi-Markov approach for modelling asset deterioration, 1241
*Bougnol, M.-L., Dulá, J. H., Retzlaff-Roberts, D. and Womer, N. K.:
Nonparametric frontier analysis with multiple constituencies, 252
Boylan, J. E.:
(*see* Syntetos, A. A.)
Brailsford, J. R.:
(*see* Black, M.)
Brailsford, S. C.:
(*see* Rauner, M. S.)
Brandão, J.:
(*see* Crispim, J.)
Brandreth, M.:
(*see* Ashton, R.)
Brazier, J. E.:
(*see* Stevenson, M. D.)
Brint, A. T.:
(*see* Black, M.)

Calvert, N. W.:
(*see* Stevenson, M. D.)
*Camanho, A. S. and Dyson, R. G.:
Cost efficiency, production and value-added models in the analysis of bank branch performance, 483
*Casado, S., Laguna, M. and Pacheco, J.:
Heuristical labour scheduling to optimize airport passenger flows, 649
Casu, B., Shaw, D. and Thanassoulis, E.:
Using a group support system to aid input–output identification in DEA, 1363

Cattrysse, D.:
(*see* Wong, H.)
Ceranoglu, A. N.:
(*see* Duman, E.)
Chan, H.-L.:
(*see* Su, C.-T.)
Chang, C.-T.:
(*see* Ouyang, L.-Y.)
Chaouachi, J.:
(*see* Haouari, M.)
Chaussalet, T. J.:
(*see* Pelletier, C.)
Chen, B.:
(*see* Tracy, D. L.)
*Chen, J. H., Jan, T. S.:
A system dynamics model of the semiconductor industry development in Taiwan, 1141
Chen, J.-M. and Chen, T.-H.:
Effects of joint replenishment and channel coordination for managing multiple deteriorating products in a supply chain, 1224
Chen, J.-M.:
(*see* Tsou, J.-C.)
Chen, M.-C.:
(*see* Su, C.-T.)
Chen, T.-H.:
(*see* Chen, J.-M.)
*Cheng, T. C. E. and Wu, Y. N.:
The impact of information sharing in a two-level supply chain with multiple retailers, 1159
Cherrett, T. J.:
(*see* Waterson, B. J.)
Choo, K. W.:
(*see* Poh, K. L.)
Chu, P.:
(*see* Hung, C.-Y.)
Comeaux, E. J. and Sarker, B. R.:
Joint optimization of process improvement investments for supplier–buyer cooperative commerce, 1310
Cordeau, J.-F. and Laporte, G.:
Maximizing the value of an Earth observation satellite orbit, 962
Corominas, A., Ojeda, J. and Pastor, R.:
Multi-objective allocation of multi-function workers with lower bounded capacity, 738
Covaliu, Z.:
(*see* Beling, P.)
Coyle, R. G.:
(*see* Powell, J. H.)
Crispim, J. and Brandão, J.:
Metaheuristics applied to mixed and simultaneous extensions of vehicle routing problems with backhauls, 1296
Crook, J. N., Edelman, D. E. and Thomas, L. C.:
Editorial, 1003
Crook, J. N.:
(*see* Andreeva, G.)
Crook, J.:
(*see* Banasik, J.)
Cropper, S.:
(*see* Ashton, R.)
Croston, J. D.:
(*see* Syntetos, A. A.)
Curran, J.:
(*see* van der Meer, R. B.)

Dada, M.:
(*see* Reinhardt, G.)
Dalziel, S.:
(*see* Leonard, K. J.)
Dangerfield, B.:
(*see* Taylor, K.)
Dasci, A. and Laporte, G.:
An analytical approach to the facility location and capacity acquisition problem under demand uncertainty, 397
David, I. and Kress, M.:
'No Overlap No Gap' and the attack of a linear target by *n* different weapons, 993
Davies, R. and Bensley, D.:
Editorial, 123
*Degraeve, Z., Roodhooft, F. and van Doveren, B.:
The use of total cost of ownership for strategic procurement: a company-wide management information system, 51
Deng, P. S.:
(*see* Hung, C.-Y.)
Despotis, D. K.:
A reassessment of the human development index via data envelopment analysis, 969
Desrosiers, J., Mladenović, N. and Villeneuve, D.:
Design of balanced MBA student teams, 60
Ding, L. and Glazebrook, K. D.:
A static allocation model for the outsourcing of warranty repairs, 825
Dohi, T.:
(*see* Giri, B. C.)
Dowd, P. A.:
(*see* Kumral, M.)
Dowsland, K. A. and Thompson, J. M.:
Ant colony optimization for the examination scheduling problem, 426
Dror, M.:
(*see* Haouari, M.)
Dulá, J. H.:
(*see* Bougnol, M.-L.)
*Duman, E., Ozcelik, M. H. and Ceranoglu, A. N.:
A TSP (1,2) application arising in cable assembly shops, 642
Dyner, I.:
(*see* Olaya, Y.)
Dyson, R. G.:
(*see* Camanho, A. S.)

Edelman, D. E.:
(*see* Crook, J. N.)
Edwards, J. S., Hall, M. and Shaw, D.:
Proposing a systems vision of knowledge management in emergency care, 180
Edwards, J. S.:
(*see* Robinson, S.)
Eglese, R.:
(*see* Fu, Z.)
*Eglese, R. W., Mercer, A. and Sohrabi, B.:
The grocery superstore vehicle scheduling problem, 902
Erel, E., Ghosh, J. B. and Simon, J. T.:
New heuristic for the dynamic layout problem, 1001
Erkip, N.:
(*see* Bayındır, Z. P.)

Fernández-Castro, A. S. and Jiménez, M.:
PROMETHEE: an extension through fuzzy mathematical programming, 119
Findlay, H.:
(*see* van der Meer, R. B.)
Finkelstein, N. M.:
(*see* Kaup, G. T.)
Flessa, S.:
(*see* Rauner, M. S.)

Fleury, G., Lacomme, P., Prins, C. and Ramdane-Chérif, W.:
Improving robustness of solutions to arc routing problems, 526
Framinan, J. M., Gupta, J. N. D. and Leisten, R.:
A review and classification of heuristics for permutation flow-stop scheduling with makespan objective, 351
*French, S., Maule, A. J. and Mythen, G.:
Soft modelling in risk communication and management: examples in handling food risk, 879
Fresard, F.:
(*see* Marianov, V.)
*Fu, Z., Eglese, R. and Li, L. Y. O.:
A new tabu search heuristic for the open vehicle routing problem, 267

Gagné, C., Gravel, M. and Price, W. L.:
Using metaheuristic compromise programming for the solution of multiple-objective scheduling problems, 687
Gagné, C.:
(*see* Gravel, M.)
Gallagher, J. E.:
(*see* Harper, P. R.)
Ghosh, J. B.:
(*see* Erel, E.)
Giri, B. C. and Dohi, T.:
Exact formulation of stochastic EMQ model for an unreliable production system, 563
Glass, C. A. and Prügel-Bennett, A.:
A polynomially searchable exponential neighbourhood for graph colouring, 324
Glazebrook, K. D.:
(*see* Ding, L.)
Glen, J. J.:
Mathematical programming models for piecewise-linear discriminant analysis, 331
Glickman, T. S. and Khamooshi, H.:
Using hazard networks to determine risk reduction strategies, 1265
Gravel, M., Gagné, C. and Price, W. L.:
Review and comparison of three methods for the solution of the car sequencing problem, 1287
Gravel, M.:
(*see* Gagné, C.)
Greasley, A.:
Using DEA and simulation in guiding operating units to improved performance, 727
Griffiths, J. D., Price-Lloyd, N., Smithies, M. and Williams, J. E.:
Modelling the requirement for supplementary nurses in an intensive care unit, 126
Güllü, R.:
(*see* Bayındır, Z. P.)
Gupta, J. N. D.:
(*see* Framinan, J. M.)
Gupta, J. N. D.:
(*see* Stafford, E. F.)
Gwilym, O. A.:
(*see* Thomas, L.)

Hague, L.:
(*see* Ashton, R.)
Hall, M.:
(*see* Edwards, J. S.)
Han, C. H. and Ahn, B. S.:
Interactive group decision-making procedure using weak strength of preference, 1204
Hand, D. J.:
Good practice in retail credit scorecard assessment, 1109
Hand, D. J.:
(*see* Thomas, L. C.)
*Hanna, R. C., Berger, P. D. and Abendroth, L. J.:
Optimizing time limits in retail promotions: an email application, 15
Haouari, M., Chaouachi, J. and Dror, M.:
Solving the generalized minimum spanning tree problem by a branch-and-bound algorithm, 382
Hare, A.:
(*see* Bennett, P.)
Harper, P. R., Philips, S. and Gallagher, J. E.:
Geographical simulation modelling for the regional planning of oral and maxillofacial surgery across London, 134
Harrison, S. A.:
(*see* Tuson, A. L.)
Herroelen, W. and Leus, R.:
Identification and illumination of popular misconceptions about project scheduling and time buffering in a resource-constrained environment, 102
Hill, R. R.:
(*see* Kinney Jr., G. W.)
Hipel, K. W.:
(*see* Li, K. W.)
Holthaus, O. and Rajendran, C.:
A fast ant-colony algorithm for single-machine scheduling to minimize the sum of weighted tardiness of jobs, 947
Hosseinzadeh, F.:
(*see* Jahanshahloo, G. R.)
Hostick, T.:
(*see* Walsh, M.)
Hou, K.-L.:
Optimal production run length for deteriorating production system with a two-state continuous-time Markovian processes under allowable shortages, 346
Hou, K.-L.:
(*see* Lin, L.-C.)
Hsieh, M.-H.:
(*see* Setiono, R.)
Hsu, C.-C. and Kim, D. S.:
A new heuristic for the multi-mode resource investment problem, 406
Hsui, C.-Y.:
(*see* Lan, C.-H.)

Thomas, L. C.:
(*see* Tsai, H.-T.)
Thomas, L., Thomas, S., Tang, L. and Gwilym, O. A.:
Impact of demographic and economic variables on financial policy purchase timing decisions, 1051
Thomas, S.:
(*see* Thomas, L.)
Thompson, J. M.:
(*see* Dowsland, K. A.)
Thorpe, R.:
(*see* Paucar-Caceres, A.)
Tohidi, G.:
(*see* Jahanshahloo, G. R.)
Townshend, J.:
(*see* Bennett, P.)
Tracy, D. L. and Chen, B.:
A generalized model for weight restrictions in data envelopment analysis, 390
Tsai, H.-T., Thomas, L. C. and Yeh, H.-C.:
An economic model for credit assessment problems using screening approaches, 836
Tseng, F. T.:
(*see* Stafford, E. F.)
*Tsou, J.-C. and Chen, J.-M.:
Dynamic model for a defective production system with Poka-Yoke, 799
*Tuson, A. L. and Harrison, S. A.:
Problem difficulty of real instances of convoy planning, 763

Utkin, O. B.:
(*see* Krivonozhko, V. E.)

Valente, J. M. S. and Alves, R. A. F. S.:
Improved lower bounds for the early/tardy scheduling problem with no idle time, 604
van den Brink, M.:
(*see* Vermeulen, J. F. J.)
Van den Poel, D.:
(*see* Baesens, B.)
Van den Poel, D.:
(*see* Verstraeten, G.)
*van der Meer, R. B., Quigley, J. and Storbeck, J. E.:
Using regression analysis to model the performance of UK Coastguard centres, 630
*van der Meer, R. B., Quigley, J. and Storbeck, J. E.:
Using data envelopment analysis to model the performance of UK coastguard centres, 889
van der Meer, R. B , Rymaszewski, L. A., Findlay, H. and Curran, J.:
Using OR to support the development of an integrated musculoskeletal service, 162
*van der Veen, J. A. A. and Venugopal, V.:
Using revenue sharing to create win–win in the video rental supply chain, 757
van Doveren, B.:
(*see* Degraeve, Z.)
Van Gestel, T.:
(*see* Baesens, B.)
van Houtum, G. J.:
(*see* Wong, H.)
van Oorschot, K. E.:
(*see* Akkermans, H. A.)
Van Oudheusden, D.:
(*see* Wong, H.)
Vanthienen, J.:
(*see* Baesens, B.)
Vasant, P., Nagarajan, R. and Yaacob, S.:
Fuzzy linear programming with vague objective coefficients in an uncertain environment, 597
Vasilakis, C. and Marshall, A. H.:
Modelling nationwide hospital length of stay: opening the black box, 862
Vasko, F. J., Knolle, P. J. and Spiegel, D. S.:
An empirical study of hybrid genetic algorithms for the set covering problem, 1213
*Vasko, F. J., Newhart, D. D. and Strauss, A. D.:
Coal blending models for optimum cokemaking and blast furnace operation, 235
Venugopal, V.:
(*see* van der Veen, J. A. A.)
*Vermeulen, J. F. J. and van den Brink, M.:
The search for an alerted moving target, 514
Verstraeten, G. and Van den Poel, D.:
The impact of sample bias on consumer credit scoring performance and profitability, 981
Villa, G.:
(*see* Lozano, S.)
Villeneuve, D.:
(*see* Desrosiers, J.)
Volodin, A. V.:
(*see* Krivonozhko, V. E.)

Waller, A.:
(*see* Robinson, S.)
Walsh, M. and Hostick, T.:
Improving health care through community OR, 193
Wang, J.-B. and Xia, Z.-Q.:
Flow-shop scheduling with a learning effect, 1325
*Waterson, B. J., Cherrett, T. J. and McDonald, M.:
The use of simulation in the design of a road transport incident detection algorithm, 1250
Wei, L.-C.:
(*see* Lan, C.-H.)
Williams, H. P.:
George B Dantzig, 1914–2005, 1349
Williams, J. E.:
(*see* Griffiths, J. D.)
Williams, T. and Wilson, J.:
Editorial, 1
Wilson, J.:
(*see* Williams, T.)
Wilson, J.:
Editorial, 1351
Womer, N. K.:
(*see* Bougnol, M.-L.)
Wong, C. G.:
(*see* Poh, K. L.)
Wong, H., van Houtum, G. J., Cattrysse, D. and Van Oudheusden, D.:
Simple, efficient heuristics for multi-item multi-location spare parts systems with lateral transshipments and waiting time constraints, 1419
Worthington, D.:
(*see* Ashton, R.)
Wu, Y. N.:
(*see* Cheng, T. C. E.)
Wu, Y.:

SUBJECT INDEX

(This index includes all *papers*)

Accidents 630, 889
Aesthetic 1141
Agriculture 317
AHP 855
Air-ground operations 993
Algorithm 699
Allocation 576, 708, 997
Ambulance services 180
Ant algorithms 426
Ant colony optimization 1287
Ant-colony algorithm 947
Ardennes Campaign 942
Arithmetic mean 855
Artificial intelligence 912
Augmentation 1072

Backhauling 1296
Bad rate 1109
Balanced scorecard 931
Banking 483, 1041, 1082, 1109
Basel capital accord 1006
Behaviour 576
Benchmark case 1141
Binary trees 235
Branch-and-bound: Lagrangian relaxation 382
Buffer management 102

Cable assembly 642
Capacitated-minimum-path 1235
Capacity planning 453
Capital budgeting 119
Car sequencing problem 1287
Cash discount 719
Categorization 495
Centralized resource allocation 357
Chance constraints 439
Channel coordination 1224
Checking rate 844
Circle packing problem 539
Classification 1006, 1082
Classification algorithms 1099
Classification models 331
Cluster analysis 25
Clustering 60
CO_2 emissions control 1352
Coal blending 235
Cokemaking 235
Combinatorial optimization 539
Combinatorics 406
Community OR 193
Competing risks 1051
Compromise solutions 687, 1196
Computational analysis 776, 997
Computing 619
Conflict analysis 699
Congestion 1250
Constant Returns to Scale 1439
Constraint propagation 365
Constraint satisfaction problem 1287
Consumer credit risk 1006
Consumer credit scoring 981
Consumer preferences 1030
Convex analysis 252
Convoys 763
Cooperative commerce 1310
Corrective and preventive repairs 563
Correlation coefficient 1303
Cost benefit 214
Cost efficiency 483
Cost frontier 676
Cost-effectiveness analysis 222
Costing 144, 997
Counterfeit 844
Cox proportional hazard model 1051
Credit 836
Credit scoring 1006, 1041, 1063, 1072, 1089, 1099, 1109
